HERITAGE TRUST

of NOVA SCOTIA

Preserving Nova Scotia's built heritage

Introduction

Welcome to the User's Guide and Material List of the Heritage Trust of Nova Scotia's Research Collection. Our collection serves as a resource for researchers looking for information on, but not limited to, the architecture, built heritage, planning, and history of specific locations throughout Nova Scotia and beyond. This guide will give you an overview of the items in our collection and how you can find them.

The research collection is divided into the following general categories:

- Locations
- Policy and Planning
- Reference
- Periodicals
- Monographs and Other Bound Materials

In this document, you will find a description of the materials contained in each category, followed by an explanation of how the category is organized, and a list of the materials that HTNS has in each category.

Please note: Information on specific topics may be found in multiple categories.

If you are using a digital copy of this guide, you can use **[Ctrl] + [F]** on PC or **[Cmd] + [F]** on Mac to search this page for specific words or titles.

Accessing the collection:

All materials are only available for use on site and cannot be checked out.

Appointments to view the collection can be made by calling 902-423-4807 or by emailing contact@htns.ca.

Locations

This category contains information about locations across Nova Scotia, and select locations in Canada and across the world. The types of materials that can be found in Locations includes, but is not limited to: histories, heritage registration related materials, maps, newspaper clippings, walking tours, promotional materials—including historic tourism information materials, and more.

Organization:

Items are organized by location. Nova Scotia is first, followed by materials about Canada, materials about the United States of America and the lastly the rest of the world organized alphabetically by country name.

Locations in NS are organized alphabetically by county with the exception of Halifax Regional Municipality which is listed last.

In areas where there are a large number of records, files may be broken down by town or street address. For example, material relating to Kings County will be filed as:

- Kings County
- Kings County - Clippings
- Kings County - Tours
- Kings County - Grand Pre - Clippings
- Kings County - Wolfville
- Kings County - Wolfville - Clippings

Locations within HRM are organized by neighbourhood and address. For example, material relating to the Halifax Memorial Library will be filed as:

- HRM - Downtown Halifax, 5381 Spring Garden Road
- HRM - Downtown Halifax, 5381 Spring Garden Road - Clippings

Alternate Names:

For locations that have a name associated with them that is different from their street address or had a previous street address in the past (e.g. 1588 Barrington Street has been known as the “Church of England Institute”, the “Khyber Building”, and the “Turret Art Space”), this information is included in the Alternate Names / Previous Street Addresses field.

Policy / Research:

This category contains documents relating to heritage policies, urban planning, and more. Policy/Research documents are organized by location (HRM, Nova Scotia General, etc.). Bound and oversized planning and policy documents can be found in the Monograph collection.

Organization:

Items are organized by location, Nova Scotia is first, followed by Canada, then other Canadian provinces alphabetically, the USA, and the rest of the world alphabetically.

Locations in NS are organized alphabetically by county with the exception of Halifax Regional Municipality which is listed last.

In areas where there are a large number of records, files may be broken down by town or street address. Locations within HRM are organized by neighbourhood and address.
